COURSE

200
Jedox Specialist, Report & Database

Introduction and advanced training in analysis and planning functions with Jedox, as well as modeling and maintenance of database structures.

Duration 18 hours

New with Jedox?
Learn basic concepts of Jedox data management, Jedox analysis and data entry. Lay the foundation for further expanding your knowledge with the Specialist learning path.

COURSE OBJECTIVES

After this course students will be able
- to effectively analyze data and create plannings with Jedox
- build complex and dynamic reports with Jedox and optimize their planning using advanced features
- set up a Jedox database with dimensions, attributes and cubes as well as to adapt these structures to changed requirements

TARGET GROUP

This course is directed at new Jedox users
- providing an overview of basic functionality and of how to read and write data
- who want to deepen their knowledge of report design to provide complex reports for analysis and planning
- who want to broaden their fundamental Jedox knowledge to the maintenance of data structures

THE TRAINING COVERS

Topics of the Specialist Level
- Introduction to Jedox OLAP
- Ad-hoc analyses with Jedox Views
- Data entry and introduction to planning scenarios
- Creating customized reports
- Dynamic element lists with subsets
- Creating and editing dimensions
- Add and maintain attributes
- Creating data cubes and simple data loading
- Creating simple calculation rules in a cube

REQUIREMENTS

To be most successful, students should have the following background:
- Knowledge of data management in table form (lists)
- Knowledge of how to edit formulas (formula wizard, formula bar, F2 mode, structure of formulas)
- Knowledge of how to deal with references (freeze with F4)
- Knowledge of standard Excel formulas: SUM(), IF(), CONCATENATE(), and the name manager
